Sample Description:

1=Fix-A Tox, #04W615, 118g

Binding Studies

Sample Numbers

Test Description:

1

Fumonisin

95.0

70.4

98.1

87.8 In vitro % binding

Adsorbent Amount: 4mg

Toxin Concentration: 2µg/mL

The above adsorbent amount and toxin concentration were combined per 1mL of aqueous solution

Method: Modified Procedure of Journal of Poultry Science

Vol. 67, p. 243-247, 1988

The Romer Labs name cannot be used in connection with these results except as part of this result sheet

In this test 4.0 mg of adsorbent is approximately equivalent to 4.0 kg of adsorbent binder per metric ton of feed (0.4%)
